07.10/2015

Dear Ms. Sevilay Pezek YANGIN,

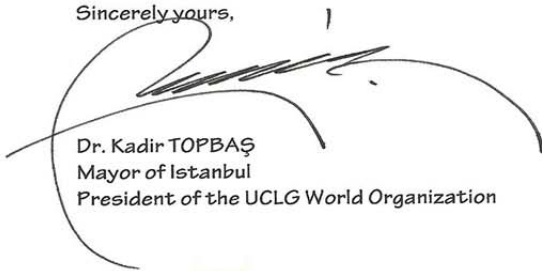

I would like to express my great pleasure at having learned that Istanbul is going to be the host city of the 16th World Congress on Human Resource Management in 2016. I firmly believe that the event would offer the participants an outstanding environment for exchanging information on the latest developments in the field.

Istanbul is one of the most impressive and attractive cities at the crossroads of Europe and Asia where the unique beauties of East and West come together. In this city, people from all religions and cultures co-exist in peace and perfect harmony. It is an open-air museum adorned with mosques, churches, synagogues, palaces and ancient monuments.

With a population that is just as large as her great potential, Istanbul offers all modern facilities to ensure peaceful and comfortable accommodation for her guests. Therefore, our city has been hosting countless international events, congresses and meetings.

On this occasion, I would like to emphasize that Istanbul is more than ready to be the host city of the 16th World Congress on Human Resource Management in 2016.

Sincerely yours,

Dr. Kadir TOPBAŞ
Mayor of İstanbul
President of the UCLG World Organization
